SAMPLE QUIZ QUESTIONS

1. Is it safe to download something from the Internet to your computer?
a. Only if it is from a trusted source and you have a parent's permission.
b. Yes, everything online is safe and can be trusted.
c. Only if you have seen it somewhere before.
d. Yes, if your friends have downloaded it before.

2. What should you do if you think you're being bullied online?
a. Turn off your computer and don't use it for the rest of the day.
b. Ignore the situation and it will go away on it's own.
c. Quickly log off and tell your parents or teacher if someone makes you feel uncomfortable.
d. If you are being bullied, bully right back.

3. Is it true that what you do online can only be seen by you and no one else?
a. Yes, this is true.
b. No, everything you do online has the potential to be seen by someone else.
c. Yes, but you can choose who you want to see your information.
d. If you tell people not to look, no one will see.

The mission of the FBI-SOS Internet Challenge is to promote cyber citizenship among students by engaging them in a fun, age-appropriate, competitive online program where they learn how to safely and responsibly use the Internet.

The **FBI-SOS Internet Challenge** is presented by the Federal Bureau of Investigation. The Internet safety program is implemented each school year with the help of the FBI, teachers and school administrators across the country, and the Enlightenment Foundation. FBI–SOS would like to thank the National Center for Missing and Exploited Children for their support in developing this resource.

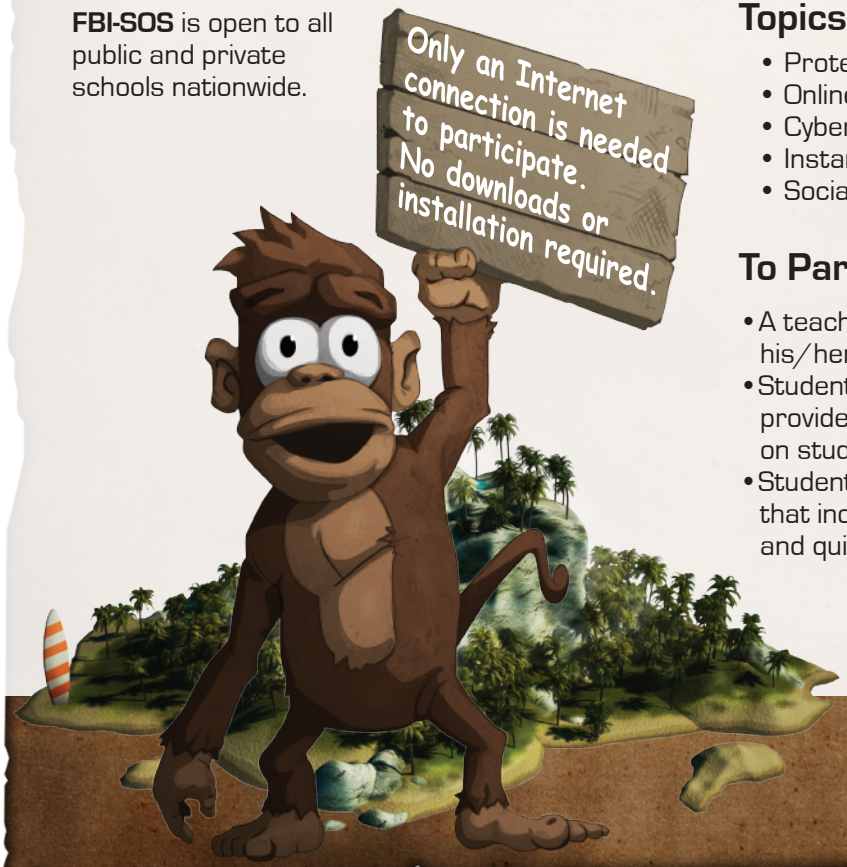
Program Overview

The **FBI-SOS** (Safe Online Surfing) **Internet Challenge** is a FREE, educational, fun online program that promotes cyber citizenship and teaches students in 3rd through 8th grades how to recognize and respond to online dangers. Sponsored and managed by the Federal Bureau of Investigation, the program provides vital Internet safety guidance in an interesting, competitive format.

The **FBI-SOS Internet Challenge** enables participating students to familiarize themselves with practical information, safety tips, and resources to help them stay protected online and grow to become safe, responsible cyber citizens.

FBI-SOS is open to all public and private schools nationwide.



How it Works

Each month, 3rd through 8th grade students compete to win the **FBI-SOS Internet Challenge** by playing games, completing activities, and taking web-based quizzes. The activities promote online safety and cyber citizenship. The program runs September through May.

Designed to meet state and federal Internet safety mandates, the **FBI-SOS Internet Challenge** addresses relevant Internet safety topics and concerns that students face today. There are unique **FBI-SOS Internet Challenges** for each grade. The program builds upon itself each year by introducing new ideas and concepts in each grade while supporting the information previously covered.

Topics Covered

- Protecting Personal Information
- Online Predators
- Cyberbullying
- Instant Messaging
- Social Networking
- Cell Phone Safety
- Gaming Safety
- Reporting
- Copyright and Fair Use

To Participate

- A teacher or administrator can register his/her school at **https://sos.fbi.gov.**
- Students are tested using a key code provided by their teachers. No information on students is collected or stored by the FBI.
- Students complete a grade-specific program that includes scavenger hunts, games, and quizzes.

The online learning portal helps students learn about Internet safety in creative ways
