

## Data Declaration

### Table 24

#### **Property Stolen and Recovered, by Type and Value, 2011**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

#### **General comment**

This table provides property types, the reported value of stolen property, and the value of recovered property. The table also lists the percentage of recovered value of each property type.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting at least 6 months of complete supplemental information regarding the monetary value of property stolen and recovered.

#### **Population estimation**

The FBI calculated 2011 state growth rates using the U.S. Census Bureau's 2010 decennial state/national population figures and 2011 provisional state/national population estimates. The FBI then estimated population figures for city jurisdictions by applying the 2011 state growth rate to the 2010 U.S. Census Bureau data.
