

## Data Declaration

### Table 19

#### **Rate: Number of Crimes per 100,000 Inhabitants, Additional Information About Selected Offenses by Population Group, 2014**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

#### **Important note about rape data**

In 2014, the FBI UCR Program initiated the collection of rape data under a revised definition and removed the term “forcible” from the offense name. The UCR Program now defines rape as follows:

Rape (revised definition): Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. (This includes the offenses of Rape, Sodomy, and Sexual Assault with an Object as converted from data submitted via the National Incident-Based Reporting System [NIBRS]).

Rape (legacy definition): The carnal knowledge of a female forcibly and against her will.

#### **General comments**

- This table provides the rate per 100,000 inhabitants and breakdowns (such as attempts, weapons, type of entry, and property types for the offenses of rape, robbery, aggravated assault, burglary, and motor vehicle theft) nationally and by city and county groupings for law enforcement agencies submitting 12 months of complete data for 2013. In addition, the table furnishes the number of agencies meeting the criteria for inclusion in this table and provides the estimated population for each population group.
- The totals provided in this table reflect only those offenses for which law enforcement agencies provided additional information to the UCR Program; therefore, the totals will not match those shown in other rate tables.

- Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area.
- Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.
- The UCR Program does not include murder or arson offenses in this table. Information about these offenses can be found in the respective sections of this report: Expanded Homicide Data and Arson.

**Methodology**

- The data used in creating this table were from all law enforcement agencies submitting 12 months of complete data (except arson) for 2014.
- The FBI derived the offense rates by first dividing the aggregated offense counts by the aggregated populations covered by contributing agencies for which 12 months of complete data were supplied and then multiplying the resulting figure by 100,000.
- The rape rates were calculated using the population of the agencies based on the UCR definition of rape (revised or legacy) they used to submit data. See table below.

**Populations used to calculate rape rates (based on rape definition used for submitted data)  
by Population Group, 2014**

<b>Population Group</b>	<b>Population (agencies using revised UCR rape definition)</b>	<b>Population (agencies using legacy UCR rape definition)</b>
Total all agencies	209,011,090	75,248,498
Total Cities	139,037,178	51,024,728

I (250,000 inhabitants and more)	42,884,439	11,160,419
Ia (1,000,000 and over)	21,921,317	2,378,369
Ib (500,000 to 999,999)	10,850,581	3,822,575
Ic (250,000 to 499,000)	10,112,541	4,959,475
II (100,000 to 249,999 inhabitants)	21,346,968	8,951,779
III (50,000 to 99,999 inhabitants)	21,249,868	10,102,617
IV (25,000 to 49,999 inhabitants)	18,685,733	8,135,028
V (10,000 to 24,999 inhabitants)	18,787,476	7,571,232
VI (Less than 10,000 inhabitants)	16,082,694	5,103,653
IX (Metropolitan County)	51,131,497	19,225,451
VIII (Nonmetropolitan County)	18,842,415	4,998,319
Suburban Area <sup>1</sup>	88,527,228	35,655,960

<sup>1</sup>Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.

### **Population groups**

The UCR Program uses the following population group designations:

<b>Population Group</b>	<b>Political Label</b>	<b>Population Range</b>
I	City	250,000 and more
II	City	100,000 to 249,999
III	City	50,000 to 99,999
IV	City	25,000 to 49,999
V	City	10,000 to 24,999

VI <sup>1, 2</sup>	City	Less than 10,000
VIII (Nonmetropolitan County) <sup>2</sup>	County	N/A
IX (Metropolitan County) <sup>2</sup>	County	N/A

<sup>1</sup>Includes universities and colleges to which no population is attributed.

<sup>2</sup>Includes state police to which no population is attributed.

### **Population estimation**

For the 2014 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2010 decennial population counts and 2011 through 2013 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2013 Census population estimate to derive the agency's 2014 population estimate.
