

# 2015 CRIME in the UNITED STATES

U.S. DEPARTMENT OF JUSTICE • FEDERAL BUREAU OF INVESTIGATION • CRIMINAL JUSTICE INFORMATION SERVICES DIVISION

## Federal Crime Data, 2015

This second edition of the Uniform Crime Reporting (UCR) Program's *Federal Crime Data* updates data from last year's report and adds several new tables. Included again are the federal agencies that have submitted traditional UCR data for some time. (Before last year, they were included in other tables in *Crime in the United States*.) Added this year are employee data and expanded offenses with arrest data from the FBI, as well as arrest data from the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). These additions signal a widening of participation that the FBI intends to continue to build on.

### The traditional model of UCR

The concept of *offenses known* was adopted in 1929 by the International Chiefs of Police as the data that would be collected in the UCR Program. The aim was to get a true sense of crime in the nation. The UCR Program was designed to be an innate step for state and local agencies to report the crimes that were most common and most likely to come to the attention of law enforcement. However, because of the types of crimes federal agencies investigate, the way they investigate and build cases is often fundamentally different than that of state and local agencies. As a result, it has been difficult to fit the square peg of federal crime data into the round hole of UCR.

A few agencies, for example the National Institutes of Health (NIH) and several agencies within the U.S. Department of the Interior (DOI), investigate and police in ways similar to local or state authorities. These federal agencies have long reported data to the UCR Program. However, other agencies, the FBI included, found it more difficult to fit into the UCR model. This report is designed as a step in an initiative to find ways to provide similar transparency and access to federal crime data that the UCR Program has brought to state, local, and tribal crime data for nearly 90 years.

### A fluid process

The UCR Program is committed to finding ways to present federal data that will add an important piece of the puzzle to the nation's crime picture. This compilation presents traditional UCR data from the DOI and the NIH, as well as data for selected offenses that have been extracted from FBI and ATF records. The strategy is to continue to build on these efforts and persistently add more federal data from the FBI and from other agencies each year. This process will be very fluid, and the data may change, grow, and shift from year to year. This means trending and comparability of data will be elusive for a while. That said, the desire for transparency and information-sharing negates waiting for total uniformity to provide data. The UCR Program plans to grow and improve federal crime reporting directly in the public eye. The Program believes the time to begin expanding the presentation of federal data is now, even if that beginning will be seen as limited in retrospect.

## Federal Agencies Presenting Traditional UCR Data

The federal agencies (e.g., the DOI and the NIH) that have previously provided traditional UCR offense data and employee counts to the Program were included in Table 11 and Table 81 of *Crime in the United States* until last year when all federal data were included in this report. The data declaration pages, which will help the user better understand the data, and the methodology used for these two tables are located in the Data Declarations and Methodology section at the end of this presentation.

## Federal Table 1

### Offenses Known to Law Enforcement

by Federal Agency, 2015

Agency	Unit/Office	Violent crime	Murder and nonnegligent manslaughter	Rape	Robbery	Aggravated assault	Property crime	Burglary	Larceny-theft	Motor vehicle theft	Arson <sup>1</sup>
National Institutes of Health		0	0	0	0	0	64	0	64	0	0
United States Department of the Interior:	Bureau of Indian Affairs <sup>2</sup>	4,640	57	493	200	3,890	10,947	2,046	7,587	1,314	199
	Bureau of Land Management	7	0	0	2	5	618	12	554	52	7
	Bureau of Reclamation	0	0	0	0	0	3	1	2	0	0
	Fish and Wildlife Service	16	2	5	1	8	131	22	96	13	4
	National Park Service	200	9	34	72	85	3,687	54	3,541	92	41

<sup>1</sup> The FBI's UCR Program does not publish arson data unless it receives data from the agency for all 12 months of the calendar year.

<sup>2</sup> Tribal figures represented throughout Table 11 of *Crime in the United States, 2015*, may be included in the aggregated totals listed under the Bureau of Indian Affairs data.

## Federal Table 2

### Full-time Law Enforcement Employees

by Federal Agency, 2015

Agency	Unit/Office	Total law enforcement employees	Total officers	Total civilians
National Institutes of Health		108	85	23
United States Department of the Interior:	Bureau of Indian Affairs <sup>1</sup>	737	341	396
	Bureau of Land Management	270	253	17
	Bureau of Reclamation	31	16	15
	Fish and Wildlife Service	661	531	130
	National Park Service	2,429	2,006	423

<sup>1</sup> Tribal figures represented throughout Table 81 of *Crime in the United States, 2015* may be included in the aggregated totals listed under the Bureau of Indian Affairs data.

# Additional Federal Data

## Comparability of federal data to state and local data

All crime data create some concerns regarding comparability. In *UCR Statistics: Their Proper Use*, the UCR Program cautions that “there are many factors that cause the nature and type of crime to vary from place to place.” It is important for users of UCR data, including federal data, to avoid drawing such simplistic conclusions as one area is safer than another or that one agency is more or less efficient than another based *solely* on crime counts.

The best approach to viewing the federal data offered in this compilation is to use it to gain an overall impression of the intensity of certain types of offenses within a specific area by overlaying the federal arrests in conjunction with the state and local information. As data collection enhancements occur, more details will become available from federal agencies, and these impressions will become more sharply focused.

Federal crime data are often different from local and state data, not only in their collection, but also in their generation. The UCR Program has built its traditional data collection on three triggering events that are common to state and local agencies. Offense information begins with either, first, a complaint of a victim/citizen or, second, the observation of a crime in progress by a law enforcement officer. A third trigger for data is when an arrest is made and information related to that occurrence is reported.

For federal agencies, the initiation of investigation may be prompted in different ways. For example, the crimes of human trafficking and hate crime and their associated data are brought to the attention of the FBI in much the same fashion:

- Reports from victims
- Liaison with other law enforcement agencies
- Information about human trafficking victims brought to the FBI by nongovernmental organizations
- Reports from the media

The decision to handle a crime as a federal investigation or as a local investigation is determined on a case-by-case basis. Some of the factors that enter into the decision for federal agencies to pursue an investigation are the available evidence, the availability of resources at the local level, and, in the case of hate crime, statutory provisions that determine whether the U.S. Attorney will accept the case as a federal one. In addition, some states do not have a hate crime statute under which to pursue a case.

### **Why federal numbers are smaller than those of other UCR agencies**

As mentioned previously, federal investigations, by nature, often begin under different circumstances and proceed and conclude on different timeframes than investigations conducted by local and state agencies. Just as federal agencies often do not have *offenses known* to report, they also do not have a number of offenses to report until a case has been built and an arrest or indictment has occurred. Perhaps most impactful on the federal numbers is the fact that federal agencies often play a collaborative role with local and state agencies in crime investigations. Because the UCR Program has the “most local reporting” rule, which specifies that the agency involved that is the most local jurisdiction should report the incident to the UCR Program, investigations and arrests that federal authorities have worked on often are reported by a city, county, state, or tribal agency.

### **Why were these offenses chosen by the FBI?**

The original three offenses presented last year were chosen because the FBI has primary jurisdiction for Hate Crime and Criminal Computer Intrusion for federal agencies. While the FBI shares the responsibility of investigating Human Trafficking with other federal agencies, the collection of statistics for this offense began in the UCR Program in 2013, and it seemed logical to add a federal layer to that collection. This year, the UCR Program has added four more offenses to this report: Bank Robbery, Child Exploitation, Health Care Fraud, and Securities Fraud. These offenses are logical choices as additions, since the Program has long collected data on robbery, fraud, and many of the offenses that would be committed when perpetrating a child exploitation. Each of the offenses presented here has overlapping jurisdiction among the local, state, and federal agencies, and adding this federal component to traditional UCR data can help complete the picture of these particular offense categories.

### **Federal Arrest Data**

The data declaration pages, which will help the user better understand the data presented in this report, and the methodology for all tables are located in the Data Declarations and Methodology section at the end of this report.

## Federal Bureau of Investigation

This section provides limited additional federal data in the form of the number of arrests by FBI field offices for seven specific crimes: Human Trafficking, Hate Crime, Criminal Computer Intrusion, Bank Robbery, Child Exploitation, Health Care Fraud, and Securities Fraud. These offenses are defined as follows:

**Human Trafficking** (Commercial Sex Acts and Involuntary Servitude) is inducing a person by force, fraud, or coercion to participate in commercial sex acts or an arrest for obtaining a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery.

**Hate Crime** is a criminal offense motivated, in whole or in part, by the offender's bias against a race, religion, disability, sexual orientation, ethnicity, or gender or gender identity.

**Criminal Computer Intrusion** is wrongfully gaining access to another person's or institution's computer software, hardware, or networks without authorized permissions or security clearances. (Local, state, and tribal agencies will report these offenses to the UCR Program, beginning in 2016, as Hacking/Computer Invasion.)

**Bank Robbery** is, within the banking environment, the taking or attempting to take anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

**Child Exploitation** is the act of taking advantage of a minor for one's own benefit (e.g., profit, power, status, sexual gratification, or some other purpose). The scope of exploitation for the purposes of this report are those statutes that cover the UCR offenses of Pornography, Kidnapping, Prostitution, Rape, Sodomy, or Sexual Assault with an Object. To further understand the offense of child exploitation in this report, refer to the data declaration of Federal Table 7 at the end of this report.

**Health Care Fraud** is, with regard to health care, the intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right.

**Securities Fraud** is, with regard to securities and commodities, the intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right.

<b>TOTAL</b>	<b>980</b>	<b>324,893,002</b>

<sup>1</sup>These arrests were for violations of one of the U.S. Code sections listed in this table's Methodology. Arrests were not included for those made in a joint investigation with other agencies when a local or state code was used nor for Child Exploitation cases when a different provision of the U.S. Code was used for the basis of arrest.

<sup>2</sup>The population for the San Juan Field Office is a combination of the U.S. Census Bureau's estimated 2015 commonwealth total for Puerto Rico and the 2010 decennial census total for the U.S. Virgin Islands.

## Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF)

This section provides additional federal data in the form of the number of arrests by the ATF within the judicial districts for Arson and Explosives offenses. These offenses are defined as follows:

**Explosive-related offenses** involve breaking laws and regulations regarding importing, manufacturing, dealing in, purchasing, using and storing or possessing explosive materials.

**Arson-related offenses** involve unlawful and intentional damage or attempts to damage any real or personal property by fire or incendiary device.

**Federal Table 10**

<b>TOTAL</b>	<b>133</b>	<b>324,506,923</b>

<sup>1</sup>These arrests were for violations of one of the U.S. Code sections listed in this table's Data Declaration/Methodology.

<sup>2</sup>The populations for the Northern Mariana Islands and the U.S. Virgin Islands were gathered from the U.S. Census Bureau's 2010 decennial census.

## *Federal Law Enforcement Employment Data*

### **Federal Table 12**

#### **Federal Bureau of Investigation**

#### **Total Employees**

by Gender, 2015

EMPLOYEE	Male	Female	Total
Special Agents	10,831	2,610	13,441
Professional Staff	9,087	12,284	21,371
Police Officers	194	34	228
<b>TOTAL</b>	<b>20,112</b>	<b>14,928</b>	<b>35,040</b>

Title	Section
	2260 – Production of sexually explicit depictions of a minor for importation into the United States
	2421 – Transportation generally
	2422 – Coercion and enticement
	2423(a)(b) – Transportation of minors
	2425 – Use of interstate facilities to transmit information about a minor

### Definitions used in Methodology

Exploitation as defined by *Black’s Law Dictionary* is “the act of taking advantage of something; esp., the act of taking unjust advantage of another for one’s own benefit.” The scope of exploitation is immeasurable in relation to the UCR offenses that could be involved within this crime. The statutes included in this reporting could result in one or more of these UCR offenses:

**Pornography**—The violation of laws or ordinances prohibiting the manufacture, publishing, sale, purchase, or possession of sexually explicit material, e.g., literature or photographs.

**Kidnapping**—The unlawful seizure, transportation, and/or detention of a person against his/her will or of a minor without the consent of his/her custodial parent(s) or legal guardian.

**Prostitution**—To unlawfully engage in or promote sexual activities for anything of value.

**Rape**—The carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

**Sodomy**—Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

**Sexual assault with an object**—To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

*Note: The crime of Sex Trafficking of Children by Force, Fraud, or Coercion (Title 18 USC 1951) was reported under the Human Trafficking offense in the 2014 Federal Crime Data report. While this crime is child exploitation, the UCR Program decided to keep that specific code within Human Trafficking. The exception to this would be when there is an arrest for multiple offenses relative to child exploitation, and one of the offenses is this human trafficking code. In that case, the arrest would be included under the Child Exploitation offense.*

Data were not included for arrests made in a joint investigation with other agencies when a state or local code was used nor child exploitation cases when a different provision of the U.S. Code was used for the basis of arrest.

### Population estimation

Population estimates used in this table are the U.S. Census Bureau published resident population estimates for counties for 2015. The U.S. Census Bureau calculates estimates based on the decennial census of 2010 and by applying measures of population changes. See <https://www.census.gov/popest/data/counties/totals/2015/CO-EST2015-01.html> for further information on county breakdowns for each state.

## Federal Table 8

### FBI Health Care Fraud Arrests

by FBI Field Office, 2015

#### Data Declaration

The FBI collected these arrest data from the FBI's internal case-management system.

#### General Comment

This table provides the arrests by FBI field offices for violations of sections of the U.S. Code relevant to Health Care Fraud.

#### Methodology

The data used in creating this table are from the arrest information reported as accomplishments in the FBI's internal case-management system. These data include arrests by the FBI or task forces for the following:

Title	Section
Title 18 USC	669 – Theft or embezzlement in connection with health care
	1035 – False statements relating to health care
	1347 – Healthcare fraud
	1518 – Obstruction of criminal investigations of health care offenses

Data were not included for arrests made in a joint investigation with other agencies when a local or state code was used nor for Health Care Fraud cases when a different provision of the U.S. Code was used for the basis of arrest.

#### Population estimation

Population estimates used in this table are the U.S. Census Bureau published resident population estimates for counties for 2015. The U.S. Census Bureau calculates estimates based on the decennial census of 2010 and by applying measures of population changes. See <https://www.census.gov/popest/data/counties/totals/2015/CO-EST2015-01.html> for further information on county breakdowns for each state.

## Federal Table 9

### FBI Securities Fraud Arrests

by FBI Field Office, 2015

#### Data Declaration

The FBI collected these arrest data from the FBI's internal case-management system.

#### General Comment

This table provides the arrests by FBI field offices for violations of sections of the U.S. Code relevant to Securities Fraud.

#### Methodology

The data used in creating this table are from the arrest information reported as accomplishments in the FBI's internal case-management system. These data include arrests by the FBI or task forces for the following:

<b>Title</b>	<b>Section</b>
Title 18 USC	1348 – Securities and commodities fraud 3301 – Securities fraud

Data were not included for arrests made in a joint investigation with other agencies when a local or state code was used nor for Securities Fraud cases when a different provision of the U.S. Code was used for the basis of arrest.

**Population estimation**

Population estimates used in this table are the U.S. Census Bureau published resident population estimates for counties for 2015. The U.S. Census Bureau calculates estimates based on the decennial census of 2010 and by applying measures of population changes. See <https://www.census.gov/popest/data/counties/totals/2015/CO-EST2015-01.html> for further information on county breakdowns for each state.

**Federal Table 10**  
**ATF Explosives-related Arrests**  
 by Judicial District, 2015  
**Data Declaration**

The ATF collected these arrest data from its internal criminal case-management system.

**General Comment**

This table provides the number of defendants arrested in calendar year 2015 for any offense charged in state or federal court related to an ATF explosives investigation.

**Methodology**

The data used in creating this table are from the arrest information reported as accomplishments in the ATF's internal criminal case management system. These data include arrests by the ATF or task forces where the ATF submitted a recommendation for prosecution. In calendar year 2015, defendants were arrested on the following charges in connection with ATF explosives investigations:

<b>Title</b>	<b>Section</b>
Title 18 USC	842(a)(1) – Deal explosives without license
	842(a)(2) – Falsify statements to explosives dealer
	842(a)(3) – Receive/trans without explosives permit
	842(c) – Distribute explosives w/ knowledge of unlawful transport
	842(h) – Stolen explosives
	842(j) – Explosives storage violation
	842(k) – Failed to report theft/ loss of explosive materials
	842(l) – Mfg Plastic explosives w/o detection agent
	842(m) – Import plastic explosives w/o detection agent
	842(n) – Possession of plastic explosives w/o detection agent
	842(o) – Fail to report possession of restricted explosives

Title	Section
	842(p)(2)(A) – Distribution of information relating to explosives, destructive devices, & weapons of mass destruction...with intent
	842(p)(2)(B) – Distribution of information relating to explosives...to any person...with knowledge of persons intent
	844(d) – Unlawful interstate transport of explosives
	844(e) – Bomb Threats
	844(h) – Used/carried during felony
	844(i) – Damage property affecting commerce
	844(k) – Theft of explosives from interstate shipment
	844(l) – Theft of explosives from licensee
	844(n) – Conspiracy to commit an arson/explosive violation
	844(o) – Transfer explosives for use in crime of violence or drug trafficking crime
Title 26 USC	5691 – Fail to pay special occupational tax
	5861 – Destructive device
	5861(b) – Receive/possess NFA firearm transferred in violation of chapter
	5861(c) – Receive/possess NFA firearm made in violation
	5861(d) – Receive/possess NFA firearm not registered in NFRTR
	5861(e) – Transfer a NFA firearm in violation
	5861(h) – Receive/possess NFA firearm without serial number obliterated/altered
	5861(i) – Receive/possess NFA firearm not identified by serial number
	5861(j) – Transport/deliver/receive NFA firearm in interstate commerce which had not been registered
	5861(k) – Receive/possess NFA firearm imported in violation EXPLOSIVES OFFENSE (DC) incendiary device

### Population estimation

Population estimates used in this table are the U.S. Census Bureau published resident population estimates for counties for 2015. The U.S. Census Bureau calculates estimates based on the decennial census of 2010 and by applying measures of population changes. See <https://www.census.gov/popest/data/counties/totals/2015/CO-EST2015-01.html> for further information on county breakdowns for each state.

## Federal Table 11

### ATF Arson-related Arrests

#### by Judicial District, 2015

### Data Declaration

The ATF collected these arrest data from its internal criminal case-management system.

#### General Comment

This table provides the number of defendants arrested in calendar year 2015 for an arson offense charged in state or federal court related to an ATF arson investigation.

## Methodology

The data used in creating this table are from the arrest information reported as accomplishments in the ATF's internal criminal case management system. These data include arrests by the ATF or task forces where the ATF submitted a recommendation for prosecution. In calendar year 2015, defendants were arrested on the following charges in connection with ATF arson investigations:

<b>Title</b>	<b>Section</b>
Title 18 USC	247 – Church Fire Activity
	844(h)(1) – Using Fire to Commit Felony
	844(i) – Arson or Attempted Arson of Real Property
	844(i) – Damage property affecting commerce
	844(m) – Conspiracy to violate 844(h)
Title 26 USC	844(n) – Conspiracy to commit an arson/explosive violation
	5861 – Incendiary device and Arson Other

## Population estimation

Population estimates used in this table are the U.S. Census Bureau published resident population estimates for counties for 2015. The U.S. Census Bureau calculates estimates based on the decennial census of 2010 and by applying measures of population changes. See <https://www.census.gov/popest/data/counties/totals/2015/CO-EST2015-01.html> for further information on county breakdowns for each state.

---

---

## Federal Table 12 Federal Bureau of Investigation Total Employees by Gender, 2015

The FBI collects these data through the Bureau's internal record-keeping systems.

## General comment

This table provides the total number of FBI employees, distinguished by gender. These data includes total FBI special agents, professional support staff, and FBI police officers.

## Methodology

The information in this table reflects employee counts as of December 2015.

An FBI special agent is defined as a criminal investigator for the federal government who conducts criminal investigations and has arrest authority. Special agents are assigned to FBI field office divisions, FBI Headquarters divisions, or FBI legal attaché offices.

Professional support staff include full-time agency personnel such as intelligence analysts, language specialists, scientists, information technology specialists, clerks, office staff, researchers, etc. that are assigned to either an FBI field office division, FBI Headquarters divisions, or FBI legal attaché offices.

FBI police officers are uniformed federal police officers who also have arrest powers and whose primary duty is security of FBI facilities.
