

Larceny-theft

Definition

The FBI's Uniform Crime Reporting (UCR) Program defines larceny-theft as the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, thefts of motor vehicle parts and accessories, shoplifting, pocket-picking, or the stealing of any property or article that is not taken by force and violence or by fraud. Attempted larcenies are included in offense totals. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.

Overview

- In 2017, there were an estimated 5,519,107 larceny-thefts nationwide. The number of larceny-thefts declined 2.2 percent when compared with the 2016 estimate. The number decreased 8.3 percent when compared with the 2013 estimate, and it declined 16.2 percent when compared with the 2008 estimate.
- The rate of estimated larceny-thefts in 2017 was 1,694.4 per 100,000 inhabitants. From 2016 to 2017, the rate of estimated larceny-thefts declined 2.9 percent, and from 2008 to 2017, the rate decreased 21.8 percent. (See Tables 1 and 1A.)
- Larceny-thefts accounted for an estimated 71.7 percent of property crimes in 2017. (Based on Table 1.)
- The average value of property taken during larceny-thefts was \$1,007 per offense. When the average value is applied to the estimated number of larceny-thefts, the loss to victims nationally was an estimated \$5.6 billion. (Based on Tables 1 and 23.)
- Thefts from motor vehicles accounted for 26.8 percent of all larceny-thefts in 2017. (See Table 23.)

Expanded data

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding larceny-theft is available in the following tables:

Trends (2-year): Tables 12, 13, and 14

Rates (per 100,000 inhabitants): Tables 16, 17, and 18

Offense Analysis: Table 23
