

Data Declaration

Table 2

Incidents, Offenses, Victims, and Known Offenders, by Offense Type, 2010

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Hate Crime Statistics Program.

General comments

- This table presents the number of hate crime incidents, offenses, victims, and known offenders distributed by offense type.
- The Hate Crime Statistics Program collects details about an offender's bias motivation associated with 11 offense types already being reported to the UCR Program: murder and nonnegligent manslaughter, forcible rape, aggravated assault, simple assault, and intimidation (*crimes against persons*); and robbery, burglary, larceny-theft, motor vehicle theft, arson, and destruction/damage/vandalism (*crimes against property*). The law enforcement agencies that participate in the UCR Program via the National Incident-Based Reporting System collect data about additional offenses for crimes against persons and crimes against property. These data appear in *Hate Crime Statistics* in the category of *other*.

Methodology

The data used in creating this table were from all law enforcement agencies submitting one or more hate crime incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for 12 months or 4 quarters.
