# **Data Declaration**

#### Table 3

## Offenses, Known Offender's Race, by Offense Type, 2010

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Hate Crime Statistics Program.

#### **General comment**

- This table presents the number of hate crime offenses distributed by the known offender's race and offense type.
- The Hate Crime Statistics Program collects details about an offender's bias motivation associated with 11 offense types already being reported to the UCR Program: murder and nonnegligent manslaughter, forcible rape, aggravated assault, simple assault, and intimidation (*crimes against persons*); and robbery, burglary, larceny-theft, motor vehicle theft, arson, and destruction/damage/vandalism (*crimes against property*). The law enforcement agencies that participate in the UCR Program via the National Incident-Based Reporting System collect data about additional offenses for crimes against persons and crimes against property. These data appear in *Hate Crime Statistics* in the category of *other*.
- The term known offender does not imply that the suspect's identity is known;
  rather, the term indicates that some aspect of the suspect was identified, thus distinguishing the suspect from an unknown offender.

## Methodology

The data used in creating this table were from all law enforcement agencies submitting one or more hate crime incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for 12 months or 4 quarters.
