

Officers Assaulted and Injured With Firearms or Knives/Other Cutting Instruments

The following information concerns duly sworn city, university and college, county, state, and tribal law enforcement officers who were assaulted and injured by firearms or knives/other cutting instruments in the line of duty in 2016. The law enforcement officers included in this report also met certain other criteria. At this time, federal officers are not included in these data. (For information about federal officers, see the Officers Feloniously Killed, Officers Accidentally Killed, and the Federal Officers Killed and Assaulted sections of this publication.)

Although the FBI's Law Enforcement Officers Killed and Assaulted Program has collected aggregate assault data for more than 50 years, the program began collecting data for assaults with injury more recently. The data collection for these assault incidents is similar to the comprehensive data collected about law enforcement officers feloniously killed in the line of duty. However, the detailed assault with injury data reflect only a subset of the assault incidents reported to the FBI's Uniform Crime Reporting Program. The detailed assault data were introduced in the 2013 publication with only 1 year of data. For 2016, several tables with 5 years of detailed assault data are also presented.

Overview

- In 2016, detailed information was received for 83 law enforcement officers who were injured with firearms or knives/other cutting instruments during assault incidents. (See Table 80.)
- Of the officers assaulted and injured with firearms or knives/other cutting instruments, 54 were employed by city police departments, including 23 who were members of law enforcement agencies in cities with 250,000 or more inhabitants. (Based on Table 80.)
- Detailed data in reference to line-of-duty assaults with injuries from firearms or knives/other cutting instruments were received from 29 states. (Based on Table 79.)

- By region, of the 83 incidents reported, 37 officers in the South were injured as a result of assaults with firearms or knives/other cutting instruments, 22 officers in the West, 13 officers in the Northeast, and 11 officers in the Midwest. (See Table 79.)
