

*The following are descriptions of the graphs and charts in the Law Enforcement Officers Killed and Assaulted, 2018 publication. Place them where they can be used for screen readers and other devices to make sure the publication is 508-compliant.*

Figure 1 (Law Enforcement Officers Feloniously Killed, Percent Distribution by Time of Incident, 2009-2018): This figure is a bar chart that provides the percent distribution by the time of day of incidents in which law enforcement officers were feloniously killed from 2009 through 2018.

Figure 2 (Law Enforcement Officers Feloniously Killed, Percent Distribution by Day of Incident, 2009-2018): This figure is a bar chart that provides the percent distribution by the day of week of incidents in which law enforcement officers were feloniously killed from 2009 through 2018.

Figure 3 (Law Enforcement Officers Feloniously Killed, Percent Distribution by Age Group, Race, and Sex, 2009-2018): This figure contains three pie charts that show the percent distribution of the age group, race, and sex of law enforcement officers who were feloniously killed from 2009 through 2018. One pie chart lists the percentages of victim officers by age group, one pie chart has percentages of victim officers by race, and one pie chart furnishes the percentage of victim officers by sex.

Figure 4 (Law Enforcement Officers Feloniously Killed and Assaulted, Five Most Common Circumstances and Assignments, 2009-2018): This figure contains two bar charts that show the number of officers for each of the five most common circumstances and assignments for felonious incidents from 2008 through 2017

Figure 5 (Law Enforcement Officers Feloniously Killed, Percent Distribution by Type of Weapon, 2009-2018): This figure is a pie chart that provides percent distribution by the types of weapons used to feloniously kill law enforcement officers from 2009 through 2018.

Figure 6 (Law Enforcement Officers Accidentally Killed, Percent Distribution by Time of Incident, 2009-2018): This figure is a bar chart that provides the percent distribution by the time of day of incidents in which law enforcement officers were accidentally killed from 2009 through 2018.
