SUPPLEMENTAL TEMPORARY RESTRAINING ORDER

WHEREAS the Court previously issued a Temporary Restraining Order which, inter alia, authorized the Government to operate a substitute server for the purpose of responding to command and control requests from infected computers with instructions for the Coreflood software to stop running; and

WHEREAS the Government has shown good cause to operate a second such server for a period of approximately one week for the same purpose;

NOW, THEREFORE, IT IS HEREBY ORDERED AND DECREED

this ____ day of April 2011, at ____ a.m./p.m.:

2. Pursuant to the authority granted by 28 U.S.C. § 566, the United States Marshal for the District of Connecticut ("USMS") shall execute and enforce the Temporary Restraining Order, with the assistance of the Federal Bureau of Investigation ("FBI") if needed, by establishing a second substitute server that will respond to requests addressed to the Coreflood Domains by issuing instructions that will cause the Coreflood software on infected computers to stop running, subject to the limitation that such instructions shall be issued only to computers reasonably determined to be in the United States.

3. The Defendants, their agents and representatives, and anyone acting under their direction or control, including the Domain Service Providers as defined in the Temporary Restraining Order, shall take all measures reasonably available to them to direct Internet traffic addressed to the Coreflood Domains to the afore-mentioned substitute server.

4. Nothing in this Order shall permit the USMS or FBI to store, review, or otherwise use any data that may be transmitted to the second substitute server from an infected computer, other than the originating IP address, network port, and the date and time of transmission.

5. A copy of the Order shall be served on the Defendants in accordance with the Order Authorizing Service.

6. This Order shall expire on the 26th day of April 2011, at 9:30 a.m., subject to the further order of this Court.

IT IS SO ORDERED.
