

Data Declaration

Number of Agencies and Population Covered by Population Group, 2011

The FBI collects these data through the FBI UCR Program's NIBRS.

General Comment

This table shows the number of law enforcement agencies (LEAs) reporting via both the Summary Reporting System and the NIBRS and included in *Crime in the United States, 2011*, and in this publication, which includes only the number of NIBRS contributors by population group.

Methodology

The figures in this publication for *Crime in the United States* come directly from the 2011 publication and follow the Methodology provided.

The figures in the number of participating agencies column for this publication are derived by counting the number of LEAs that reported at least one Group A Offense Report, Group B Arrest Report, or Zero Report to the NIBRS during the period January 1 through December 31, 2011.

The FBI calculated 2011 state growth rates using the U.S. Census Bureau's 2010 decennial state/national population figures and 2011 provisional state/national population estimates.
