

Data Declaration

Sex Offense Incidents Offense Type by Time of Day, 2011

The FBI collects these data through the FBI UCR Program's NIBRS.

General Comment

This table shows the number of incidents per sex offense type by the time of day in which the crime occurred.

Methodology

This table uses the following rules and then aggregates the data by time of day in which the incident occurred:

- Incidents columns – count one for each sex offense type identified in Data Element 6 (UCR Offense Code) within each NIBRS incident.
- In a multiple-offense incident, count one for each sex offense type in the incident.
