

Data Declaration

Sex Offenses Offense Type by Location, 2012

The FBI collects these data through the FBI UCR Program's NIBRS.

General Comment

This table shows the number of offenses per sex offense type by location where the sex offense(s) type occurred.

Methodology

This table uses the following rule and then aggregates the data by location of the incident:

- Sex Offenses columns – count one for each victim, i.e., Victim Segment, connected to each sex offense type in the incident (in a multiple-offense incident, count a victim for each connected sex offense type).
