*Population figures are published only for the cities. The figures listed for the metropolitan and college are resident enrollment and were provided by the United States Department of Education for the 2011 school year, the most recent available. The enrollment figures include full-time and part-time students. The FBI UCR Program determines the agency's data were either unreported or overreported. Consequently the FBI did not publish the data for this offense in Iowa in the United States, 2012. However, for publication of NIBRS 2012 data, the FBI is publishing the actual number of offenses reported to the program.
