

## Data Declaration

### Sex Offense Incidents Offense Type by Time of Day, 2013

The FBI collects these data through the FBI UCR Program's NIBRS.

#### General Comment

This table shows the number of incidents per sex offense type by time of day in which the crime occurred.

#### Methodology

This table uses the following rules and then aggregates the data by time of day in which the incident occurred:

- Incidents columns – count one for each sex offense type identified in Data Element 6 (UCR Offense Code) within each NIBRS incident.
- In a multiple-offense incident, count one for each sex offense type in the incident.
