

Data Declaration

Sex Offenses

Number of Offenses Completed and Attempted by Offense Type, 2013

The FBI collects these data through the FBI UCR Program's NIBRS.

General Comment

This table shows the number of offenses completed or attempted by sex offense type.

Methodology

This table uses the following rules and then aggregates the data by whether the sex offense type was completed or attempted:

- Sex Offenses columns – count one for each victim, i.e., Victim Segment, connected to each sex offense type in the incident (in a multiple-offense incident, count a victim for each connected sex offense type).
- Number of Offenses Completed – count one for each sex offense type, i.e., Offense Segment, where Data Element 7 (Offenses Attempted/Completed) is C = Completed.
- Number of Offenses Attempted – count one for each sex offense type, i.e., Offense Segment, where Data Element 7 (Offenses Attempted/Completed) is A = Attempted.
