

## Data Declaration

### Sex Offenses

#### Offense Type

#### by Type of Weapon/Force Involved, 2013

The FBI collects these data through the FBI UCR Program's NIBRS.

#### General Comment

This table shows the number of offenses per sex offense type by the type of weapon/force used by the offender when the crime was committed.

#### Methodology

This table uses the following rule and then aggregates the data by the type of weapon/force used by the offender when the crime was committed:

- Sex Offenses columns – count one for each victim, i.e., Victim Segment, connected to each sex offense type in the incident (in a multiple-offense incident, count a victim for each connected sex offense type).

Notes: Number of sex offenses does not equal the number of weapons reported in an incident; it is possible to report up to three types of weapon/force involved for each offender in an incident.

Type of Weapon/Force Involved is collected for 15 NIBRS offense types, with only these offense types used in this table:

11A = Rape

11B = Sodomy

11C = Sexual Assault With An Object

11D = Fondling

Type of Weapon/Force Involved data are not collected for nonforcible sex offenses.
