*Populations are published only for cities. The figures listed for the metropolitan and non-metropolitan areas are estimates and may vary slightly from the most recent available. The non-metropolitan figures include full-time and part-time residents.
The human trafficking figures in this table may differ from other FBI/UCR Program publications which do not include human trafficking since NIBERS data is continually updated. This publication is based on a snapshot of the 2010 NIBERS master file as of May 2014.
