

Data Declaration

Incidents, Offenses, Victims, and Known Offenders by Offense Category, 2014

The FBI collected these data through the Uniform Crime Reporting (UCR) Program's National Incident-Based Reporting System (NIBRS).

General Comment

This table shows the number of incidents, offenses, victims, and known offenders by their associated offense categories. The 23 offense categories shown are comprised of 49 offense types.

Methodology

To arrive at the totals provided for each column of data, the UCR Program used the following counting rules:

- Incidents—one for each offense type identified within each NIBRS incident.
- Offenses:
 - Crime Against Person—one for each victim.
 - Crime Against Property—one for each unique offense type.
 - Crime Against Society—one for each unique offense type.
- Victims—one for each victim connected to each offense type in an incident. (In multiple-offense incidents, a victim was counted for each connected offense type.)
- Known Offenders—one for each offender connected to each offense type in an incident except for Unknown Offenders, who were not counted.
