Section 1— Message To Program Participants

Welcome to the new *UCR Program Quarterly*

It is finally here! Welcome to the new UCR Program Quarterly. In the past, the national Uniform Crime Reporting (UCR) Program notified state Program managers and direct contributors of changes, announcements, and Program-related information via the *UCR State Program Bulletin* and *UCR Newsletter*, respectively. Since both documents contained virtually the same information, the national UCR Program staff decided to combine the documents into the new *UCR Program Quarterly*.

The *UCR Program Quarterly* will continue to provide state Program managers and direct contributors with the latest information about the UCR Program. As its name implies, the document will be presented on a quarterly basis in a more colorful, easier-to-read format. Any information pertaining only to state UCR Programs or only to direct contributors will be prominently displayed.

We want to know what you think about this new format. Please e-mail the national UCR Program staff at <cjis_comm@leo.gov> with your questions, comments, and suggestions.

Update to the Uniform Crime Reporting Program Redevelopment Project

The Uniform Crime Reporting Redevelopment Project continues to update the FBI's data collection and reporting system, but a variety of challenges has resulted in a delay in launching the "New UCR." The release date of January 5, 2014, has been postponed; a revised release date has not yet been determined.

The national UCR Program staff is working with each State Program manager and direct contributor to coordinate operations and activities for the upcoming year. The FBI is working to ensure that any burden caused by the delay is borne by the national UCR Program and not by the state Programs or direct contributors.

Does this delay affect the deadline for paperless submissions?

No. For those states and direct contributors that have a credible plan in place to submit crime data electronically to the national Program by July 2014, that deadline has not changed.

The FBI will continue to keep UCR Program stakeholders apprised of the status of implementing the New UCR. Agencies with questions should contact the national UCR Program staff by telephone at (304) 625-4830 or by e-mail at <cjis_comm@leo.gov>.

Data deadlines for 2014

State UCR Program managers and direct contributors should note the following deadlines for data to be received by the Crime Statistics Management Unit (CSMU). State Program managers are asked to inform their local agencies of these deadlines.

December

Prior to the **December 12, 2014**, deadline, the CSMU will forward correspondence to state UCR Program managers that informs them if the FBI has not received their police employee counts.

The deadline for current year's police employee counts to be submitted to the CSMU is **December 12, 2014**.

The deadline for making changes to an agency's current reporting status, name/address, or for adding new contributing agencies within the state is **December 31, 2014**.

In December 2014, the 2013 master files will be created for summary and incident-based data; therefore, no more 2013 data submissions will be processed.

***All direct contributors and state Programs are encouraged to submit data by established deadlines to ensure data are thoroughly reviewed. If publication deadlines cannot be met, agencies should continue to forward data so that these data can be entered into the UCR master data files.**

Section 2— Clarifications To Policies and Procedures

Clarification regarding drug types

The UCR training staff has received questions about how to classify the drugs Buprenorphine and Desomorphine. The FBI's Laboratory Division has advised the national UCR Program staff that agencies that report data via the National Incident-Based Reporting System (NIBRS) should report both drugs as H = Other Narcotics; agencies that report data via the Summary Reporting System (SRS) should classify the drugs as Synthetic Narcotics on the Age, Sex, and Race forms.

Buprenorphine

Buprenorphine is also known as Naloxone. Brand names for the drug include Suboxone, Subutex, Buprenex, and Temegesic. The drug is used to prevent withdrawal symptoms from opioid dependence. Common street names are Bupe, Subs, Subbies, or Orange Guys.

Desomorphine

Desomorphine is also known as Permonid. A derivative of morphine that can be made from codeine, desomorphine is a fast-acting sedative. Its street name is Krokodil or Crocodile.

Agencies with questions should contact the national UCR Program trainers by e-mail at <ucrtrainers@leo.gov>.

Guidance regarding the classification of Theft of Motor Vehicle Parts and Accessories versus Theft From a Motor Vehicle

Recently, the national UCR Program's training staff received several requests for clarification about when to classify an incident as a Theft of Motor Vehicle Parts or Accessories and when to classify an incident as a Theft From Motor Vehicles.

The offenses are similarly defined in the NIBRS and in the SRS. Theft of Motor Vehicle Parts and Accessories is defined as the theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner that would make the item an attachment of the vehicle or necessary for its operation. Theft From Motor Vehicles is defined as the theft of articles from a motor vehicle, whether locked or unlocked [*Summary Reporting System (SRS) User Manual*, Version 1.0, dated June 20, 2013, p. 48, and *National Incident-Based Reporting System (NIBRS) User Manual*, Version 1.0, dated January 17, 2013, pp. 34-35).

The national UCR Program staff is presenting the following examples to assist state Program managers and direct contributors.

Example 1: A man was driving down the road when he noticed sparks and smoke coming from his engine. He pulled his vehicle over and opened the hood and noticed the sparks and smoke were coming from the battery. He unhooked the battery, placed it in his backseat floorboard area, and proceeded to walk to the nearest house to get help. When he returned to his vehicle an hour later, someone had broken into his vehicle and taken the battery.

NIBRS Offense—Theft From Motor Vehicle (23F): The theft of articles from a motor vehicle, locked or unlocked.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—Theft From Motor Vehicles (6Xd): The theft of articles from a motor vehicle, whether locked or unlocked.

Property Description—(K) Miscellaneous

Justification: The battery was not connected to the vehicle at the time of the theft.

Example 2: A man was replacing the brakes on his vehicle in his driveway. He had removed all four tires from the vehicle and placed them in his backyard for storage. While he was working on the brakes, someone entered his backyard and stole the four tires.

NIBRS Offense—All Other Larceny (23H): All thefts that do not fit any of the definitions of the specific subcategories of Larceny/Theft.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—All Other Larceny (6Xi): All thefts which do not fit the definition of the specific categories of larceny.

Property Description—(K) Miscellaneous

Justification: The tires were not on the vehicle at the time of the theft.

Example 3: A woman entered an automobile parts store, took an oil filter and air filter off the shelf, and left without paying for the items.

NIBRS Offense—Shoplifting (23C): The theft by someone other than an employee of the victim of goods or merchandise exposed for sale.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—Shoplifting (6Xc): The theft by a person (other than an employee) of goods or merchandise exposed for sale.

Property Description—(K) Miscellaneous

Justification: The parts were not within or connected to a vehicle at the time of the theft but were displayed for sale.

Example 4: Someone broke into an automobile and stole a Global Positioning System (GPS) device out of the console of a vehicle.

NIBRS Offense—Theft From Motor Vehicle (23F): The theft of articles from a motor vehicle, locked or unlocked.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—Theft From Motor Vehicles (6Xd): The theft of articles from a motor vehicle, whether locked or unlocked.

Property Description—(K) Miscellaneous

Justification: The GPS was not attached to or factory installed to the vehicle at the time of the theft.

Example 5: Someone broke into an automobile and stole a GPS that was affixed to the front windshield with a suction cup.

NIBRS Offense—Theft of Motor Vehicle Parts or Accessories (23G): The theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—Theft of Motor Vehicle Parts and Accessories (6Xe): The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner that would make the part an attachment to the vehicle or necessary for the operation of the vehicle.

Property Description—(K) Miscellaneous

Justification: The GPS was affixed to the windshield which made it an attachment to the vehicle.

Example 6: Someone broke into an automobile and stole a factory-installed GPS out of the dashboard.

NIBRS Offense—Theft of Motor Vehicle Parts or Accessories (23G): The theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Property Description—(38) Vehicle Parts/Accessories

SRS Offense—Theft of Motor Vehicle Parts and Accessories (6Xe): The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner that would make the part an attachment to the vehicle or necessary for the operation of the vehicle.

Property Description—(K) Miscellaneous

Justification: The GPS was connected to the vehicle because it was a factory-installed unit.

Agencies with questions or that need further guidance should contact the UCR trainers by e-mail at <ucrtrainers@leo.gov>.
